

Red Team

Improve the effectiveness of your defensive capabilities

Our Red Team service is designed to continuously evaluate the capabilities of your organization in terms of prevention, detection and response to cyber attacks.

A realistic scenario is generated, using the same techniques that cyber attackers use every day.

We assist your security team and work together to improve your defensive capabilities.

There is constant notice of any attack or technique that has been used successfully, so that your organization is prepared for the actions of cybercriminals.

Advantages

- > Know your level of exposure to real attacks
- > Improve your team's defensive capabilities
- > Identify and mitigate complex vulnerabilities
- > Actionable intelligence for decision making
- > Recommendations based on results

Other Services

- > Penetration Testing
- > Computer Forensics
- > Social Engineering
- > Cyber Intelligence

About Us

Securetia is made up of a team with a proven track record in Cybersecurity. Our experts have more than 10 years working in the field, performing tasks such as Penetration Testing, Source Code Audits, Computer Forensics, Incident Response, Consulting and Implementation of Security Technologies.

We focus our efforts on helping organizations improve their security so that cyber-attackers can not break their barriers and their information can be protected.
